Profile

Graduated in Software Engineering and passionate about modern technologies, I have led several full-stack, DevOps, and AI integration projects. I bring technical versatility (Java, Python, React, Docker, AI APIs) and a quality-oriented approach to design and maintain robust, intelligent solutions. Committed to continuous learning, I regularly complete certifications in AI, data science, and digital marketing to stay at the forefront of the field.

Professional Experience

AI Integration Developer — Personal Projects, Remote (01/2026 – 03/2026)

Built 4 production-ready AI-powered applications deployed live on Streamlit Cloud:

- CV Analyzer AI – Analyzes CVs against job descriptions with match score, strengths and advice. Supports PDF upload, URL input and 3 languages (EN/FR/AR). Live demo: cv-analyzer-syrineahmed.streamlit.app
- AI Chatbot with Memory – Conversational AI with full history and multiple personalities (HR Assistant, Coding Mentor, Career Coach). Live demo: syrineahmed-chatbot.streamlit.app
- Smart Job Search – Searches real jobs via Adzuna API and analyzes each with AI for match score and skill requirements. Live demo: job-search-syrineahmed.streamlit.app
- Document Chat (RAG) – Chat with any PDF using RAG architecture: chunking, embeddings, vector search and context-aware answers. Live demo: syrineahmed-document-chat.streamlit.app

Technologies: Python, Groq API, LLaMA 3.3, Streamlit, LangChain, ChromaDB, HuggingFace, Prompt Engineering

Full Stack Developer — WeLoadSolutions, Tunis (02/2025 – 08/2025)

Design and implementation of a complete fleet and delivery management platform based on microservices architecture.

- Backend with Spring Boot, Keycloak for authentication, PostgreSQL for database, MailHog for email – containerized with Docker in a CI/CD pipeline
- Web platform with React.js, mobile app with React Native, each with Storybook for component documentation
- GitHub Actions for automated deployment; Jira and Scrum for project management with Kanban board tracking
- Project link: weloadsolutions.com

BI Developer — ESPRIT, Tunis (10/2024 – 11/2024)

Business Intelligence project in the sports industry – data collection, cleaning and interactive dashboards with Power BI to analyze performance and extract key insights.

DevOps Developer — ESPRIT, Tunis (09/2024 – 11/2024)

DevOps project using Ubuntu with unit testing on Spring Boot and Angular, integrating Jenkins, Nexus, SonarQube, and Docker.

- Backend repo: github.com/haythambrahim/DevOps
- Frontend repo: github.com/haythambrahim/DevOps-Angular

Mobile Developer — ESPRIT, Tunis (10/2024 – 11/2024)

Development of a mobile application (EksinyApp) with FlutterFlow, integrating external APIs for an intuitive and responsive user interface.

Project Management – Jira and Xray — ESPRIT, Tunis (09/2024 – 10/2024)

Managing projects using Jira (epics, user stories, task tracking) and Xray for test planning and execution to ensure quality and compliance.

Full Stack Developer — VadaSoft, Tunis, Monastir (07/2024 – 09/2024)

VS Bazaar – innovative e-commerce marketplace for startups and employees. Built with Spring Boot backend and React.js frontend. Repo: github.com/syrineahmed/Bazaar

Cyber Security — ESPRIT, Tunis (04/2024 – 05/2024)

Security project using Kali Linux, Ubuntu and Metasploit, focused on testing and improving cybersecurity measures.

Full Stack Developer — ESPRIT, Tunis (02/2024 – 05/2024)

Coco Esprit – student app offering housing, carpooling and e-commerce features.

- Spring Boot backend with RESTful APIs and Cloudinary for image management
- Angular frontend with Web3 blockchain for secure transactions
- Project management with GitHub and Trello

- Backend repo: github.com/AmalSlimi/coco_spring
- Frontend repo: github.com/AmalSlimi/coco_angular

Medical Project Developer — ESPRIT, Tunis, Sousse (01/2024 – 05/2024)

MedFly – platform helping Tunisians organize medical travel abroad (flights, accommodation, hospital stays) using Symfony, PHP and Java. Repo: github.com/syrineahmed/Symfony

Full Stack Developer — DRÄXLMAIER Group, Sousse (08/2023 – 09/2023)

Frontend and backend development with Symfony. Created an HR-employee communication platform to optimize workplace interactions.

Application Developer — ESPRIT, Tunis (10/2022 – 12/2022)

Municipal elections management app with user-friendly electronic voting platform using C programming language, Glade and Ubuntu. Repo: github.com/syrineahmed/Friends-mates

Skills

AI & Python: Python, Groq API, LangChain, ChromaDB, Streamlit, Prompt Engineering, RAG Architecture, HuggingFace

Backend: Java, Spring Boot, PHP, Symfony, RESTful APIs, Keycloak, PostgreSQL, SQL, C#

Frontend: React.js, React Native, Angular, JavaScript, HTML, CSS, Web3, FlutterFlow

DevOps: Docker, GitHub Actions, Jenkins, Nexus, SonarQube, CI/CD, Ubuntu

Tools: Git, Jira, Xray, Figma, Power BI, Trello, Storybook, Kali Linux

Soft Skills: Communication, Leadership, Teamwork, Analysis, Bilingual

Education

Software Engineering – ESPRIT, Tunis (09/2022 – 10/2025)

Relevant Courses: Object-Oriented Programming, Databases, Data Structures, Computer Networks

Pre-Engineering Diploma – IPEIB, Bizerte (09/2019 – 06/2022)

Relevant Courses: Physics, Chemistry. Intensive two-year preparatory program for engineering studies.

Scientific Baccalaureate – Lycée Pilote de Sousse, Sousse (09/2015 – 06/2019)

Focused on fundamental sciences, developing analytical thinking and rigor.

Languages

Arabic (Native), English (Fluent), French (Fluent), German (Basic)

Certificates

AI & Machine Learning

- Elements of AI – University of Helsinki & MinnaLearn, 2 ECTS credits (07/2026)
- Fundamentals of AI (Learning Path) – IBM Skills Network / Cognitive Class (07/2026)
- Deep Learning Fundamentals – DeepLearning.TV, Cognitive Class / IBM (07/2026)
- Intro to Machine Learning – Kaggle (07/2026)
- Intermediate Machine Learning – Kaggle (07/2026)

Data Science & Programming

- Python 101 for Data Science – IBM, Cognitive Class (07/2026)
- Python – Kaggle (07/2026)
- Pandas – Kaggle (07/2026)
- Data Cleaning – Kaggle (07/2026)
- Data Visualization – Kaggle (07/2026)
- Intro to Programming – Kaggle (07/2026)

Business & Project Management

- Fundamentals of Digital Marketing – Google Digital Garage (07/2026)
- Scrum Fundamentals Certified (SFC) – SCRUMstudy, VMEdU Inc. (07/2026)

Sustainability & Ethics

- Sustainability, Work Ethics & Gender Equity Certificate – Honoris Online Academy, Honoris United Universities (2024)
